Description

An on-trend mix of modern Filigree style rings - which illustrate a delicate craft of jewellery metalwork, with creative scrollwork and latticework throughout quality rhodium rings. The beauty of rhodium is its ability to withstand household chemicals and resist corrosion and tarnishing - so stays beautifully shiny for longer - unlike say silver jewellery.

Comes assorted in the 3 designs shown - all with an adjustable band - so one size fits all.

Comes assorted and includes an organza bag - so already for gift-giving!
