Description

The Kids will be so excited growing their own vegetables!

Grow a crop of Potatoes from one Old Spud!

Grow root veggies in the base while herbs or salad greens scattered through the top.

You will not lose it... bright orange on the outside while yellow inside. Complete with 2 sturdy carry handles, a Velcro open/close flap and five metal rimmed drainage holes throughout.

Growing potatoes at home is easy and cheap!

Just save your old potatoes that start to sprout... cut up the potato ensuring each section has a growing sprout.

One old potato can grow you up to say 6 plants and each plant will crop you 2-4 potatoes.

Measures 34cm in height and base is 34cm in diameter.

The kids can check out YouTube for tips and instructions on helping their Mum or Dad set up growing potatoes within the bag.
