Description

A Gift that will Keep on Giving - Every Day!

The handsome characters are created using Hale Wood and lac - a natural, non-toxic resin and coloured with natural dyes made from Turmeric, Indigo, Catechu and Jatropa.

The resulting wooden beads are threaded with thickened cord and fitted with a sturdy Silvertone split-ring for Dad's keys.

Under \$6 : Maya Organic Keyring Assortment

A keyring is a wonderful personal gift that remains a constant reminder and a treasured gift-giving time.

Our Dad's will be reminded everyday as they leave the house with their keys, of the gorgeous little one that chose this character keyring.

A special feature of these keyring characters is that their beads are moveable up and down the cord... so Dad can fiddle and change the shape of his character.

The hat or head might rise up; the legs or arms lengthen... which completely changes the look of the character. This action of bead movement is somewhat therapeutic - similar to the use of worry beads.

A Therapeutic and Practical gift - all in one!
